The Ronald McDonald House of Cleveland offers a place to call home at little or no cost so families can access the best health care, regardless of their location. The facility allows families to stay together, which can help their children heal faster and cope better. The House enables families to focus on the health of their child rather than anything else – like paying bills, cooking meals, or cleaning. It preserves a sense of normalcy with home-cooked meals, comfortable beds, and recreational activities for the family to enjoy. Most importantly, The House helps families create connections with other families, staff, and volunteers. In doing this, families have a support system to turn to during the most stressful moments of their lives. [Learn more...](#)
